

Python & Raspberry Pi with Minecraft Pi

What I Created

I assembled a Raspberry Pi computer!

I wrote Python code to teleport and more in
Minecraft Pi.

What I Learned

I learned how to use the Thonny editor to write
and run code.

I learned about variables. A variable stores a value
so that we can use it!

My Notes

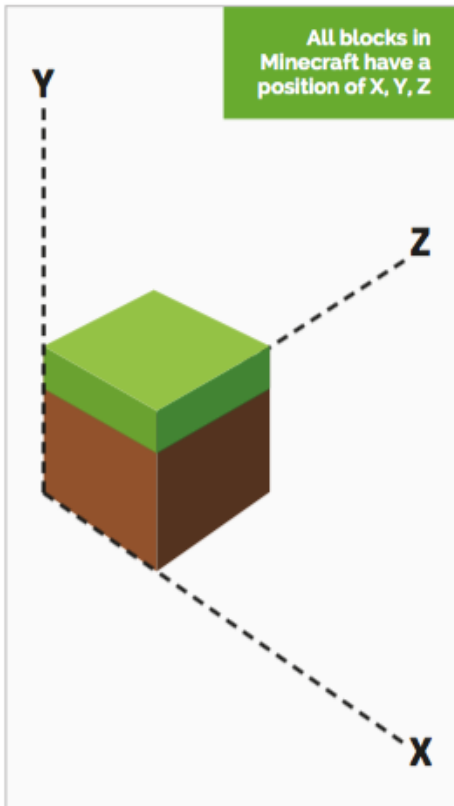

How to move in Minecraft Pi

Mouse control	Action
Moving the mouse	Changes where you look
Pressing left button	Destroys blocks
Pressing right button	Places blocks

Key	Action
w	Moves you forward
a	Moves you left
s	Moves you right
d	Moves you backward
Space	Jump
Double space	Start or stop flying
E	Opens the inventory
1, 2, 3, 4, 5, 6, 7, 8	Changes what you're holding
Esc	Pause / Game Menu
Tab	Release mouse from game

Coordinates in Minecraft Pi

Position	Boundaries
x	-125 to 125
y	-64 to 64
z	-125 to 125

My house's coordinates

x = _____
y = _____
z = _____
